# Who We Are

---

Domaindotin is a full-service digital solutions company specializing in website development, digital platforms, and growth-driven marketing strategies. We focus on building scalable, user-friendly, and purpose-driven digital experiences that help organizations effectively reach and serve their audience.

Our expertise includes website development, platform architecture, content structuring, SEO, branding, and performance marketing, enabling us to create complete digital ecosystems tailored to specific needs. With a dedicated in-house team, we work closely with clients to design and develop platforms that are not only visually engaging but also highly functional and easy to manage. Our approach combines strategic planning, intuitive UI/UX design, and structured content systems to deliver long-term value.

This proposal outlines our approach to building a dedicated academic website for Shafi Fiqh, designed to store, organize, and share books, study materials, and scholarly resources in a structured and accessible manner. Through a well-planned platform, we aim to create a centralized digital knowledge hub where students, scholars, and the public can easily access authentic resources anytime, from anywhere.

*Domaindotin Digital LLP is pleased to submit a proposal for Shafi Fiqh. The terms of this proposal are valid for up to fifteen days after being presented.*

**“** Structured Platforms,  
Seamless Access To  
Knowledge

# Overview and Goals

---

Shafi Fiqh aims to build a dedicated academic platform to store and share books, study materials, and scholarly resources in an organized and accessible way.

The goal is to create a centralized digital knowledge hub where students, scholars, and the public can easily access authentic content anytime, from anywhere.

**The platform will focus on:**

- **Organizing books and study materials in a structured format**
- **Providing easy search and navigation for users**
- **Ensuring accessibility across devices (mobile & desktop)**
- **Building a reliable and scalable academic resource system**
- **Making knowledge publicly accessible in a simple and user-friendly way**
- **Admin panel to easily upload, edit, and manage books and resources**
- **Category and tagging system for better content organization**
- **Secure content management with role-based access (if needed)**
- **Ability to update and expand content without technical dependency**

**Through a well-structured platform, Shafi Fiqh will establish a trusted online space for learning, research, and knowledge sharing.**

# Scope of Project

---

## Research

- . Understanding academic content structure and user needs
- . Analysis of similar educational/resource platforms
- . Content categorization planning (books, materials, topics)

## Strategy

Platform focus will be on:

- Structured knowledge organization
- Simple and intuitive user experience
- Easy content accessibility
- Scalable system for future expansion

## Deliverables

- Custom academic website development
- Responsive design (mobile & desktop)
- Search and filter functionality
- Admin panel for content upload & management
- Category and tagging system
- Performance optimization

## Key Performance Indicators

- Centralized digital resource platform
- Easy access to books and study materials
- Simplified content management for admin
- Improved reach and accessibility of knowledge

# Project Cost & Fee Breakdown (Revised)

This revised proposal reflects the additional features and expanded scope requested for the Shafi Fiqh academic platform.

The updated requirements include multiple content sections, category-based structuring, and advanced resource access features, which require additional development effort and backend configuration.

Task		Amount
Initial Proposal	4-page static website + 1 content posting module	₹ 12,500
Additional Requirements	1 new page, 3 extra posting modules + category pages + book access features (read/download)	₹ 8,000
Total Project Cost	Complete academic platform development	₹ 20,500

## What's Added in Revised Scope

- Multiple posting modules (Total: 4 sections)
- Category-based pages (structured content for better organization)
- Book access features (Read Online / Download options)
- Enhanced backend for managing multiple content types
- Improved UI structure for better user navigation
- Scalable system for future content expansion

## Why the Cost Increased

- Increased number of dynamic sections and content types
- Additional backend development for content management
- Implementation of file handling (PDF/books upload & access)
- More complex UI/UX structure for multiple categories
- Higher development time and testing requirements

Content need to shared from your side properly. Hosting, domain, and maintenance (if any) will be discussed separately. The platform will be built for easy content management without technical dependency. Future upgrades or additional features can be added as needed

# Terms & Conditions

---

This agreement confirms that both parties understand and accept the scope of services, deliverables, timelines, and commercial terms outlined in this proposal.

- **Scope Confirmation:** All services will be delivered strictly as per the agreed scope. Any additional requirements outside this scope will be subject to separate discussion, timelines, and pricing.
- **Project Commitment:** Both parties agree to maintain professional collaboration, ensuring timely approvals, clear communication, and smooth execution throughout the project.
- **Client Responsibility:** The client must ensure timely communication, proper coordination, and sharing of required content/materials. A consistent point of contact must be maintained throughout the project to avoid miscommunication and delays.
- **Delays & Project Impact:** Any delay in communication, approvals, or content sharing from the client's side will directly impact the project timeline. Extended delays or lack of response may be considered as project cancellation.
- **Advance Payment:** For the revised scope and additional features, an additional amount of ₹8,000 is required. This additional amount must be paid in advance to initiate the revised development work.
- **Revisions:** Reasonable revisions will be accommodated within the agreed scope. Additional revisions beyond scope may incur extra charges.
- **Termination Clause:** Either party may terminate the agreement with prior notice. Any completed work up to that point will be billed accordingly, and no refunds will be applicable.

## Acceptance:

By signing this proposal, both parties formally agree to the terms, responsibilities, and commitments stated above.
